micronAir®

Cabin Air Filtration Product
MicronAir® No. BM03144C, BM03144P

1

Tools:
Flathead screwdriver
Phillips screwdriver

- Locate the cabin air filter panel under the glove compartment on the passenger side.
- Remove three screws.

2

- Disengage three tabs to release panel from housing.
- Remove panel by sliding away from the mounting and pulling downward.

3

- Unlock plug connections and disconnect from the panel.

4

- Pull the cabin air filter down to remove.

5

- Replace with a clean micronAir® Cabin Air Filter.

6

- Reconnect plug connections and slide panel back in place, making sure guides on bottom of panel are seated in the mounting, until the tabs snap back.
- Replace screws.

This micronAir® Cabin Air Filter fits: BMW Z4, from model year 2003.

Get in and breathe easy.

The vehicle manufacturer recommends that the filter be changed every year or 15,000 miles.
Engineered for Original Equipment Manufacturer Specifications.
